

Welcome to the Siouxland District Health Department (SDHD) Website. SDHD is the public health agency for Woodbury County. [Public health](#) promotes and protects the health of people and the communities where they live, learn, work, and play by trying to prevent people from getting sick or injured. Public health also promotes wellness by encouraging healthy behaviors.

SDHD's mission statement: ***"Leading a collaborative effort to build a healthier community through improved access to health services, education and disease prevention."***  
***for All***

Vision statement: ***"A Healthy Community***

## Radon Test Kits Available

Radon is the second leading cause of lung cancer in the US. Radon is an odorless, colorless, naturally occurring gas found in soil. The only way to know if your home has radon is to test for it. The Siouxland District Health Department sells short term test kits year round for \$7. The cost of the kits include the test, postage and receiving of results.

[Learn more about radon](#) and test your home today.

---

Did you know that SDHD does free testing for STDs? We also treat many STDs for free as well.

Click [here](#) to find out how to get tested.
